

We are pleased to inform you that our Company has been certified as per the NEW - ISO 9001:2015 and ISO 14001:2015 Standards on Friday, 07th October 2016, after the completion of an audit conducted in our premises.

AEN declares "Notice of Readiness" as we have completed a thorough review of the relevant procedures that are incorporated in the Integrated Management System and have already been harmonized with the NEW ISO9001:2015 and ISO14001:2015 standards.

Both new standards set the foundation aiming to incorporate a common structure, an increased alignment with strategic direction, a focus on proactive initiatives, the enhanced requirements on Leadership, a specific operational structure and a risk-based decision making tool.

In this context the organization identify risk associated with threats and opportunities, significant environmental aspects and compliance obligations, and determine actions to address them within the IMS and EMS.

ISO 9001 and ISO 14001 Certifications are part of our continuous and effective efforts on board and ashore for systematic improvement, proper implementation of the Company's procedures and enhancement of all the aspects related to the fulfillment of the Company's mission and vision!

A.E. Nomikos Shipping Investments Ltd. would like to grasp the opportunity to thank you for your contribution to this aim and also remind you that the efforts should be continuous.

Evangelos Tsoumpos

DPA / HSQE Manager
