The purpose of the MRM was to:
Introduce and analyze the implementation of the IMS on board and ashore.
Ensure that corrective / preventive actions being developed as a result of non-conformities, incidents/injuries and unsafe acts are adequate.
Review of the Company’s activities as well as inspections, audits, etc. since previous meeting.
Discuss all operations and all safety, quality, health and environmental aspects of the fleet and review statistics and trend analysis of injuries/incidents, audits, inspections, etc.
Monitor and discuss progress towards Company targets
All forthcoming rules and regulations and all actions necessary to comply with were thoroughly discussed.
Existing KPI’s reviewed & New KPI’s established. The agreed from last year action plan was reviewed, as well as the follow-up actions and their status.

Our Values Deliver Your Goods

Management & Environmental Review Meeting 2016
Piraeus, 3rd April 2017

There is no more powerful engine driving an organization toward excellence and long-range success than an attractive, worthwhile, achievable vision for the future, widely shared.

We feel as a team in AEN!

MRM 2016 motto by Mrs. Nancy Gakis
General Manager
If You Care You Share!

Dear AEN Crew Member,

Every day we interact with many friends and colleagues during our service on board, and yet there are times we feel alone. In AEN family, we strongly believe that if we take some time to observe, we would definitely see that we are infinitely more connected by our common aims, vision and similarities than divided by our personal characteristics or even ambitions.

During our career, we have faced numerous difficulties, going home, sitting in our couch and feeling alone even though we were surrounded by loved ones. Years passed and hard times are still there. But we still feel alone convinced that no one understood what we had experienced.

Personally speaking, one day the helpless feeling came too much and I realized that I did something unique to offer others experience. Experience fighting the personal battle that results from unpleasant incidents. I never wanted another person to feel like I did.

So now our efforts are to reach each one, find others, talk to others and make those vital connections so they never feel alone.

The truth is that none of us is alone. All we have to do is take notice of what happened and share it.

So reach out, share your invaluable experiences AMONG THE AEN FAMILY coming from your everyday duties, practices followed, cooperation with port authorities, audits, inspections, incidents, accidents, proposals and chats with your friends and colleagues focusing on our similarities and common vision.

_The AEN Campaign should be communicated on board the vessel during the Safety Committee Meetings with relevant instructions and guidance to all crew members._

Wishing you always smooth seas.

Best regards,

Evanagelos A. Tsounpos

DPA / HSQE Manager
A.E. NOMIKOS SHIPPING INV. LTD.

Alkyoni SB @
Mobile, Alabama,
USA

M/V ALKYONI SB has successfully completed a USCG inspection in Mobile, Alabama, USA, on 30th January 2017 contributing to the Company’s KPI for Zero Detentions within the year.

Fire and Abandon Ship Drills were successfully conducted in the presence of the USCG Officers.

We would like to express our sincere thanks to all crew members for their excellent performance during the USCG Inspection!

Obviously, such a success gives us more strength to continue achieving even higher targets.

ATALANTI SB @ HO CHI MINH, VIETNAM

AEN on board M/V ATALANTI SB in Ho Chi Minh, Vietnam.

AEN has completed a full inspection / audit on board our vessel and supervised the familiarisation – handover procedure between the two Masters.

Our Cpt. Papadopoulos Manolis assisted us during the audit process and delivered the command of the vessel to the new Cpt. Kavouras Dimitrios.

We wish our new Master Smooth Seas and a successful service period on board.
February 2017

A.E. NOMIKOS SHIPPING INVESTMENTS LTD. has been honored and selected among other companies by the HELLENIC ACCREDITATION SYSTEM (E.SY.D.) which in cooperation with the HELLENIC REGISTER OF SHIPPING SA conducted an additional audit - review of our Quality System and awarded to our Company the certificates of compliance according to the standards ISO 9001:2015 & ISO 14001:2015 with respect to the activity of management of Bulk Carriers.

A.E. NOMIKOS SHIPPING INVESTMENTS LTD. would like to grasp the opportunity to thank the auditors and all the involved parties for their contribution to this aim and our Company’s Vision.

Aurora SB @ Sohar, OMAN

AEN has completed a full inspection / audit on board our vessel in cooperation with all crew members and under the supervision and instructions of our Captain Antonios Mastrokalos.

The vessel was being maintained in a very good manner. All Officers were professional and appeared knowledgeable in maintaining and operating equipment.

Conversations with the Master and crewmembers during the inspection convey a sincere desire to fully comply with the Company’s Policies.
From all of us in AEN,
we wish you...
Happy Easter!

Editor’s note
By Evangelos Tsoumpos, Naval Architect & Marine Engineer

Welcome to AENews Issue No.10! Management Review Meeting is always a very special occasion for the AEN Key Shore Staff, where all of our targets and KPI’s are analyzed and presented. Undoubtedly, 2016, has been a tough yet successful year, with excellent performance that gives us strength to continue our efforts by maintaining the achieved level and aiming to even higher targets.

I would like to personally express my sincere thanks to all members of AEN Team, either on board or ashore, for their work, cooperation and contribution in facing various difficulties but having one aim, “What is next”!
